

ASM S 30

fixed bowl spiral mixer

Reliability

Quality dough

Compact dimensions

The ASM/S 30 is the smallest and most compact spiral mixer in the MIXER range. With two spiral speeds interlocking with two bowl speeds, and contained dimensions, it requires a maximum height of around 85 cm at lid open.

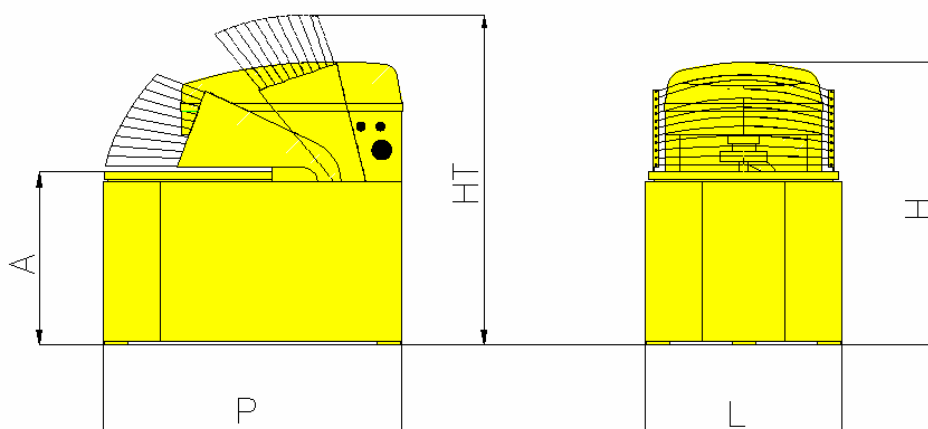

This model has been designed for smaller bakeries, pizzerias or confectioners to give a mixer with optimum results and compact dimensions. The mixer can be used on the worktop, with castor rollers (optional) or on a wheeled trolley (optional).

The ASM/S is reliable and practical, for use with small quantities of dough. It is an excellent second or even third machine for artisans that produce small quantities of specialized products.
